Agenda

- Water System consolidation
- SB606 and AB1668/Research project?
- Sea level rise
- Homeless populations, sanitation, and water quality

Water System Consolidation

-Authority back in 2015 from SB88 to do mandatory consolidations in certain narrow circumstances (i.e., disadvantaged community violating drinking water standards). One mandatory consolidation since then. Handful of voluntary.

Water Board is working on some concepts to expand authority, which will be unveiled in print in the coming weeks.

Moving forward: Can EPA R9 share lessons learned re. consolidation in CA or any of the other R9 states? Where has there been success? Dave and Max will follow-up. During our next call, there will be a lot more to discuss.

SB606 and AB1668
